

Solaris Bus & Coach Co. is a family-owned and run company based in a town of Bolechowo, north of Poznań. We manufacture a range of advanced city buses, local buses, trolleybuses, tourist coaches as well as buses for special applications. All Solaris Bus & Coach products meet the highest quality standards. Our vehicles are manufactured from high-grade stainless steel and are fitted with chassis and powertrain components supplied by Europe's leading proprietary manufacturers.

During the process of development and manufacture of our buses we focus our efforts on their future owners and operators, passengers and drivers alike. Our chief objective is to satisfy in equal measure the specific requirements and demands all these groups of customers.

Our priorities are based around:

- Driving safety and a sense of safety and security for passengers
- Product reliability and durability
- Highest quality of components and parts availability
- Simplicity of engineering and design concepts with passenger and driver comfort
- Innovative and attractive styling
- Highest quality of components used and excellent spare parts availability
- Competitive purchase price

This pursuit of product excellence has enabled us to develop a range of buses whose modern and attractive styling, with comfortable and passenger-friendly travel environment, all communicate a sheer joy of creation.

Our long-term objective is to achieve a stable presence on the European market. Today our products are well-known throughout Poland and in several European countries. We aim to prove that family-owned businesses have every chance of succeeding in the marketplace, especially at the times of rapid globalisation, thanks to quick decision-making, flexibility and the ability to react to changing market demands. We believe that economy, much in the same way as nature, needs diversity to facilitate growth, and that there is room both for large multinational corporations as well as small and medium businesses.

For the purposes of FP7 Transport projects participation, Solaris Bus & Coach is interested in joining project consortia in following fields:

SST.2008.1.1.1 – Clean and energy efficient gasoline and diesel power trains

SST.2008.1.1.2 – Electric-hybrid power trains

SST.2008.1.1.5 – Future power-trains for commercial vehicles

SST.2008.3.1.1 – New mobility concepts for passengers ensuring accessibility for all

SST.2008.3.1.2 – Intelligent mobility systems and multi-modal interfaces for transport of passengers

SST.2008.3.1.5 – Urban buses and delivery vehicles using second generation hybrid electric technology
